# LETTER FROM THE METH SUMMIT PLANNING COMMITTEE

---

The Meth Summit Planning Committee would like to personally thank you for attending *Meth Summit III: Connecting to Solutions*. Our staff from the Department of Tribal Relations and the Department of Social Services were proud to bring all of you to a virtual space to talk about what we can do to support you as you support South Dakota's Tribal communities through this methamphetamine epidemic.

## *Meth is Everyone's Problem.*

We know that this was only a few hours of training and networking, but we hope that you connected with others who share your passion for rehabilitation and prevention to make lasting professional relationships that will benefit the Native American communities of South Dakota.

We appreciate your time, talents, and passion for treating people struggling with addiction. You are the boots on the ground, making the everyday differences in people's lives. It's our sincere hope that our team can provide you with assistance and support to treat those who are addicted to meth, prevent its future use, and heal our communities from the damage that the production, distribution, and use of meth has already caused.

You are the frontline soldiers in this battle. And our Meth Summit Committee staff appreciated you.

Whether you were able to attend the 2020 Meth Summit, or it just didn't work out this year, we hope to see you in 2021 for Meth Summit IV!

Thank you for making this event a success and thank you for your dedication to fighting to get meth out of South Dakota and out of Tribal communities.

Respectfully,

The Meth Summit Planning Committee
